All,  
Attached is the current revised draft of the SFY15 AK PPA. Please review. If you have edits or additions please work with your State of Alaska programmatic counterparts to develop revised PPA language. Please send any revisions to Gary Mendivil at DEC [editor of the document, his email address is on the cc line above] and cc me, by COB 3 June.

Please call if you have any questions.

Ken

Ken-

Attached in MS Word format is the latest draft of the FY 2015 Performance Partnership Agreement. I accepted all the changes that were made prior to the April 28 distribution, so this draft only shows edits in track-changes format that have been made since the last draft. Please note that some of the items in this version are awaiting concurrence from EPA folks that appear to be out of the office. Also there are Water Division items that still need to be updated. I hope we can do a quick turnaround on the next set of edits. I still have not formatted the document to make sure that all the numbering and lettering makes sense. I just wanted to make sure we had the language worked out first before I polished it....

I would propose that we give folks until Friday, May 30 or Monday, June 2 to get their edits / changes back to me. How does that work with your schedule of meeting with folks in Seattle next week? Should I add another 5 days to the above dates?
